

October 11, 2024

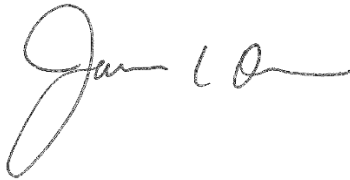

Dear Colleague,

We wish to invite you, your students, and their family members, to our **Fall Lecture Demonstration Show**. This event is hosted by the UNM Department of Physics and Astronomy, and will take place on **Saturday, November 2, 2024, in Regener Hall room 103, at 11:00 am**. For about an hour, undergraduates from the Society of Physics Students and some of our faculty will demonstrate a “rocket” car, apparently magical effects of electric and magnetic fields, the enormous power of atmospheric pressure, “visible” sound waves, and more!

Attached to this email is a flier to distribute to your students. Free parking is available on the main campus near Regener Hall in the “B/P” lot on the NW quadrant of the intersection of University and Central. A map of the building location and parking for zone “B/P” is noted in the enclosed fliers.

If you have any questions, please feel free to contact me or our demonstration supervisor, Hatem Babaa (hbabaa@unm.edu).

Sincerely yours,

James L. Thomas  
Associate Chair for Undergraduate Studies  
Physics and Astronomy, UNM
